

# When You're Able to Feel Comfortable

Regina H. - Kansas City, Missouri

*"Medicaid has  
been a **blessing.**"*

***That's Medicaid** shares stories of people covered by Medicaid at critical points in their lives, underscoring the importance of stable health insurance coverage in building a Culture of Health.*

Throughout her life **Regina** has received Medicaid benefits intermittently when between jobs in the local school district and at nonprofit organizations.

"To me Medicaid is user friendly and during vulnerable times you don't know if you are going to be able to afford coverage," she says.

The program in Missouri provides her daughter with regular physicals, immunizations, dental visits and medication—some of which the family couldn't obtain before the Medicaid coverage.

"As a parent we are supposed to be providers so it feels good to be covered by Medicaid. It feels safe," Regina says. "We can take her to the doctor if she has any problems and we don't have to worry about any issues. Medicaid has been a blessing."
